CV Check Valve 1/2"

This is your number one tool to remedy low head drainage. On most landscape situations there are areas that are lower than the sprinkler valve. When the sprinklers or drip quit running then the water pools at the low spots. The CV is designed to screw on underneath the sprinkler and it is preset to hold back 11 feet of water. Thus stopping the water in the low spots, sidewalks and other areas.

Specifications:

- Inlet 1/2 FPT
- Outlet 1/2 MPT
- Length 2 1/8"
- Check preset at 11ft.
- Pressure Range 17 to 100 PSI
- Valve opens at 17 PSI
- Valve closes at 11 PSI

1/2" CHECK VALVE
MAX PSI 100 LBS.

FLOW	PSI LOSS
1 GPM	0
2 GPM	2
3 GPM	4
4 GPM	8
5 GPM	9
